IT CAME WITH A VENGEANCE

Chicago Bulls Were Easily Stampeded and Wheat Dropped to 90 1-4c.

Speculators Who Had Been Building Hopes on a Cold Wave and Indiscriminate Foreign News Were Given a Drubbing.

MONEY AND STOCKS.

Light Business at New York, the Market Showing Strength on Active Stocks. At New York, Saturday, money on call was easy, with no loans, closing offered at

2 per cent. Prime mercantile paper, 4@5 per cent. Sterling exchange was quiet but steady at \$4.85% for sixty-day bills and \$4.88 for

demand. The total sales of stocks were 141,489 shares, including the following: Atchison, 2,010; Chicago Gas, 8,665; Delaware, Lackawanna & Western, 6,120; Delaware & Hudson, 9,958; Erie, 8,430; New Jersey Central, 3,021; New England, 5,300; Reading, 32,500; Richmond & West Point, 2,210; St.

Paul, 13,995. The stock market in the main was strong, but remained very dull, and there were only four active stocks-St. Paul, Reading. Delaware & Hudson and Denver & Rio Grande preferred, whose combined operations were over half the total business transacted. The strength in the last two was also the one feature of the market, though the other coalers were in close symand the grangers, while dull, presented a very firm front. continued evening up strength of the general list, but there was the two stocks which gave character to the trading. Delaware & Hudson scored a remarkable gain, rising from 131 to 13814 and closing at the top figure, while Denver & by interests which have been bulling the stock for some time, rose from 491/2 to 5178, also closing at the best price. Jersey Central responded to the strength in Delaware & Hudson by rising again above 140, but Lackawanna and Reading were not so strong. Rumors in regard to the reorganization sent Richmond West Point preferred up 1 per cent. and affected the bonds favorably, but the stocks were very dull with the rest of the market. The general list opened with irregular, but slight, changes from Friday night's figures,

and a slow but steady improvement oc-curred up to the time of the publication of the bank statement, which showed a heavy loss in specie and the surplus reserve, though its influence was momentary. The close was active and strong, at the best prices of the day. The final changes were generally small fractional gams, but Dela-ware & Hudson rose 512, Denver & Rio Grande preferred 23s, Jersey Central 11s and Lackawanna 1 per cent.

Railroad bonds were rather more active than usual of late, but the temper of the list was barely firm and some irregular changes occurred during the session. The total tranactions were \$1.333,000, out of which the Richmond & West Point fives contributed \$234,000; the Reading seconds, \$115,000 and the Chicago & Erie incomes \$198,000. Government bonds were dull and steady, and State bonds were neglected. Closing quotations were:

TRADING AT CHICAGO.

Raid of a Prominent Operator Causes

Pork to Decline 25c. CHICAGO, Feb. 27.-The wheat market had a very decided break to-day; trade ened extremely dull for a time, and prices held quite steady close to the closing figures of yesterday. But the feeling gradualty grew weak, and when a few items of bearish news were collected, and pervaded in the pit, the bulls were stampeded, and prices dropped. Cables were somewhat conflicting, some private advices quoting duliness and lower prices, while others said the market was holding its own. The regular Board of Trade cable was steady and firm. The general business, however, was exceedingly dull, and the trade seemed hesitating and cautions, with timidity the most notable characteristic. Longs seemed to feel uncertain of their ground, while the bears seemed full of courage and confidence. With the trade in this condition it did not require much in the way of bear news and much aggressiveness on the part of sellers to put the longs in a panic. The fact that Dry-salted means (loose lots)—Shoulders, Liverpool was no lower after our weak market of yesterday, gave the friends of wheat some courage at the start, the price of May around the opening being 92@924c, against 91% o at the close yesterday. It held within those figures for an hour or more. Then this failure of the expected cold wave to develop any dangerously low temperature in the winter wheat country began to have a bearish effect. Next it began to be talked around that the visible supply would show an increase of 500,000 to 600,000 bushels. Bradstreets reported the exports from both coasts for the week at 8,337,000 bushels, against 4,040,-000 bushels last week. Then followed a rumor that Russia was to abrogate the export prohibition ukase, and another that the Russian crop of last year had been found to be largely in excess of former estimates. Improbable as these Russian remors were they had instant effect on a market that was already weak, and there was a rush on the part of the longs to get rid of their holdings, and short sellers were equally anxious to get out their lines. The continued heavy receipts in the Northwest were also a drag on the market. Weakness was the feature of the market from that time till the close, which, at 904c, was the lowest figure of the day and 20 below the

Corn was quiet and weak, owing partly to duliness of trade and partly to the break in wheat. The shipping demand was siscker than usual, and there was very little speculative buying. Holders showed some discouragement and a good many sold freely. The market opened isc higher, at 42%c, in sympathy with the early firmness in wheat, and improved isc more, but it sold off to 41%c and closed at i2c. Oats were more active but lower and weak. The liquidation of several large

lines which was commenced yesterday was continued to-day. Helmholz was a liberal seller, offering 100,000 bu in blocks. The

responsible for this, but a sudden raid by a prominent speculator in the latter part of the session aided in the depression. There were one or two little rallies, but they were feeble. Lard and ribs were less affected, and show only immaterial de-

LOUISVILLE, Ky., Feb. 27.—The feature of the leaf tobacco market this week has been its extraordinary activity. The sales are the largest for any week on record for this or any other market, and on Wednesday the sales were the largest ever made on a single day in this or any other market. These immease offerings have had some effect on prices, depressing nearly everything except the low and the very fine grades; and as the latter two include only limited executives. ited quantities it will be seen that practically the whole market has been affected. The truth of it is that the agents and the buyers are no longer hungry. So much has been fed to them since the beginning of the year that their appe-tites are in a measure satiated. Manufacturers' stocks are now accumulating, and buyers do not now have to watch the breaks as closely as form-erly. Many hogsheads are neglected. One price may be paid for one, and another price, a dollar or two less, may be paid for another of precisely the same quality. It cannot be said that any particular grade is affected more than any other. Receipts nave been very heavy this week. This warm weather has given farmers a good season. On some days the receipts have reached 1,200 or 1,300 hogsheads. Condition has been good, but there has been some deterioration in quality.

LIVERPOOL, Feb. 27.—Cotton—Spot steady, with but little doing; middling, 3 11-16d. Sales, with but little doing; middling, 3 11-16d. Sales, 8,000 bales, of which 1,500 bales were for speculation and export, and included 6,400 bales American. Futures closed steady; American middling. low middling clause, February, 3 43-64d, values; February and March, 3 43-64d values; March and April, 3 43-64d@3 44-64d; April and May, 3 47-64d, buyers: May and June, 3 51-64d, sellers: June and July, 3 54-64d, buyers; July and August, 3 58-64d, sellers; August and September, 3 61-64d, sellers; September, 4d sellers.

NEW ORLEANS, Feb. 27.—Cotton quiet; middling, 6½c; low middling, 5½c; good ordinary, 5½c. Net receipts, 4,853 bales; gross receipts, 4,855 bales; exports to Great Britain, 11,780; exports coastwise, 7,834 bales; sales, 3,200 bales; stock, 426,371 bales. The future business of the New Orleans Cotton Exchange will be suspended March 1, Mardi Gras being a legal holiday, and the general exchange room will be closed at 12 o'clock on that day.

ST. LOUIS, Feb. 27.-Wool-Receipts, none; shipments, 26,000 pounds. The coarser grades of bright wool still continue to be most wanted. Bright medium ranges, 19@2212c; braid to coarse, 14@20c; fine light, 16@21c; fine heavy, 13@18c.

ion of Brookside addition.....

Broom-Corn Culture, Country Gentleman.

The first requisite is a good soil, which may be similar to that required for Indian corn, or a rich, warm loam. An inverted green sward does well, and a river bottom appears to succeed best. If the land is not already rich enough, rotted manure broken fine in moderate quantity may be useful, and on some lands a load of ashes and a few bushels of finely powdered lime may be added. When the ground is thoroughly prepared by harrowing after plowing, the seed may be planted in rows three and a half feet apart, and in hills two or three feet asunder in the rows. Eight or ten seeds may be planted in a hill, and if six plants to a hill grow that number will be enough. The planting should be done late enough to escape spring frost.
The seed being smaller than common corn, should be buried hardly so deep, an inch, with fine, moist soil being about enough.
Thick planting gives the finest and toughest brush. The crop is cultivated with horse, and with such hand-labor as will thoroughly clear the rows of starting weeds. This should be repeated many times, as weeds not only injure the crop, but greatly increase the labor over when half an inch high. When the seed is a little past the milk, breaking the tops is done by bending the rows to-wards each other, a foot or so below the brush. When the seed is fully ripe they are cut and placed under shelter, and thoroughly dried. The remaining portion of the stalks is cut and worked into manure, after being chopped with a stalkcutter. The seed may be cleared from the brush by horse power, or in the absence of such machinery it may be done by hand by means of a long-toothed curry-comb. From three to eight hundred pounds of brush may be obtained from an acre, varying with soil and seasons. The production of seed is uncertain, but sometimes twenty to forty bushels are obtained.

There are other ways in which an orchard may be valuable besides in the single item of its fruit product. As a shelter or windbreak for the protection of other crops it is sometimes worth a great deal, and if forests induce ram-fall why will not orchards serve the same purpose?

DAILY, SUNDAY AND WEEKLY

The Journal is first of all a newspaper. Its primary object is to pub lish the news, and to secure this it spares no pains or expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of looking after matters in which the State: and its people are concerned, and is under the management of an Indiana man well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is cond stantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all it endeavors to be accurate and trust. worthy, printing the news, whatever it may be, without personal or parti-

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the one ject of putting everybody in the way of doing so that the price of the

DAILY JOURNAL

-----Was reduced to-----

15 CENTS A WEEK.

No other method of securing a Republican victory at the polls is so certain as the circulation of Republican papers among voters. Since the reduction in price thousands of subscriptions have poured in from all parts of the State, showing that a need was supplied. In order to have the proper influence and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being formed and agencies established wherever daily mails reach and as rapidly as traveling agents can visit the places, but Republicans in each and every locality cannot do their party greater service than to interest themselves in circulating the Journal.

THE SUNDAY JOURNAL

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a va

CHOICE READING MATTER

That satisfies the most exacting taste.

The same reasons that call for the immediate extension of the daily circulation apply to the weekly. This is carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican
